The Safe Family Justice Centers are a safe place for victims of abuse to get help. SAFE FJC can provide advocacy and support services to individuals who have experienced domestic violence, sexual assault, human trafficking, child/edler abuse and services for youth at risk.

Join us at our Indio Center to learn about the resources and services we have to offer. Hear from victim advocates, SAFE FJC Board Members, local law enforcement and elected officials about the difference we are making for people during the most difficult time in their lives.

We will be collecting backpacks and school supplies to provide our youth clients. Your generous donations are incredibly appreciated.
